Living well is
the best revenge.

Carson

What's the best seat in your house? Is there a chair or sofa you can't wait to sink into at the end of a busy day? Ah, but maybe you're not a "sinker." Not to worry.

From poufs to lounge chairs to love-seats and divans, Carson can provide the perfect place to perch, pose, or simply pause.

It's time to say goodbye to that hand-me-down recliner you inherited from a well-meaning relative. Yes, it's a classic. So are cutoff jean shorts. But you're ready to up your game in the décor department. Carson's modern takes on classic designs elevate your surroundings from shab to fab.

Inspired by mid-century style, Carson creates furniture that displays a come-hither look. Don't be surprised when your guests make a beeline to your new chair. Better order a pair.

Carson furniture looks great and feels even better. Crafted by hand, each design can be customized with your choice of top-quality materials. Select responsibly harvested oak, walnut, or bamboo. Do you prefer polished chrome or brushed steel? For upholstery, we offer uncommonly soft synthetics, natural fibers, and a unique faux-leather option that will delight your vegetarian friends, not to mention cows everywhere.
